Math Skills for Classroom Instruction

Instructor: Karen Field

This class will review general math skills and knowledge commonly taught at the elementary, middle, and high school level. The concepts demonstrated and practiced will be those found on the test.

March 11 & 18 4:00 – 6:00

Learning Services Center, Evergreen Room

Fee: \$5

Credit: 4 hours of professional growth credit (you must attend both sessions to get credit)

Reading Skills for Classroom Instruction

Instructor: Danielle Fournier

This is a reading comprehension class that will help participants understand, interpret, and analyze a wide range of text. The instructor will go over the reading skills and knowledge covered in the test and demonstrate methods to aid participants in qualifying.

March 10 & 16 4:00 – 6:00

Learning Services Center, Timberline South

Fee: \$5

Credit: 4 hours of professional growth credit (you must attend both sessions to get credit)

Writing Skills for Classroom Instruction

Instructors: Patti Taylor, Kris Hagemeyer

In this class, participants will review and practice the writing and grammar skills needed to pass the writing portion of the ParaPro Assessment. Types of questions, the content tested, and strategies for success will be presented in a hands-on environment. Participants will have the opportunity to take a practice test so that the instructor can differentiate instruction for those enrolled.
